

# Residencial Olivina

## Parque la Reina

Parque La Reina is an emerging residential area with a great demand for homes and a scarce selection of businesses to meet the residents' day-to-day needs. The success of this area derives from its direct access to the motorway and its proximity to the south's main tourist areas and the Reina Sofia airport.

At our completed developments Aneto III and Olivina, we still have available the last unfinished trading warehouses and small business premises. These properties area ideal for any kind of business: from offices in Aneto III to small businesses in Olivina.
